Sant Muktai Dindi: 19/06/2023

There are many women saints who have played a valuable role in social work. Sant Muktabai, who flourished in the Saraswat of May Marathi, and inculcated the hall of Marathi literature, who gained extraordinary intelligence, who grew up in the circle of geniuses, the sister of Dnyaneshwar who was well versed in the path of devotion. Arts and Science College Chausala distributes medicine to the pilgrims of Sant Muktai Dindi every year under social activities. This activity is conducted under the National Service Scheme. Students, professors and volunteers of the college participated in this

On this day, vice-president of the institution Dr. Deepatai Kshirsagar was present and accepted the request of the Varakars of Dindi and also sung a song.

Water Conservation in the vicinity.

Objective of the practice:-

- 1. To create awareness about water problem.*
- 2. To create awareness on water conservation and water management.*
- 3. To increase ground water level.*
- 4. To work for society.*

Context: Beed district is a drought prone area with low rainfall. Therefore, there is water scarcity in the district. In this, the problem of drinking water for human and animal has been solved for some time by building vanrai bandhara (Forestry Dam) in Dhotra Village, vanrai bandhara (Forestry Dam) in saakhre borgaonVillage and Roulasgaon Village. The institute try to create awareness among the villagers about the importance of water.

The Practice: The institute to solve the problem of water scarcity in the vicinity has built Vanrai Bandhara (Forestry Dam) at the village of Dhotra. Even the institute has built Vanrai Bandhara (Forestry Dam) at the village of Raulasgaonandsaakhre borgaonVillage. This practice of the institute to some extent has solved the problem of water scarcity and has increased ground water level.

Evidence of Success:

Vanrai Bandharas (Forestry Dams) Raulasgaon Village.

Vanrai Bandharas (Forestry Dams) at Dhotra Village.

Problem Encountered and Resources Required: Less awareness among the people regarding water conservation. Place for water conservation.

Resources Required: Number of participants to work for building forestry dams. Equipment's to dig and build Vanrai Bandhara. Material like stones,sand, soil, empty cement bags,etc. Limited financial Assistance Best Practice

Helping the families of suicidal farmers:

Due to poor financial condition the farmers are committing suicide. Farmers are not getting much support from the nature. The government's negligent approach towards the farmers is responsible for farmer's committing suicide. It becomes impossible for the farmers to meet two ends. To break this vicious cycle farmers are committing suicides. But our institute lends helping hand to the families of the

farmers who have committed suicides. For that the institute, helps them by providing female goats sometimes, some times by providing flour mills,etc. so that the victim families can meet two ends.

Objectives of the Practice:

To create the awareness for farmers' poor condition.

To lend helping hand to the families of farmers who committed suicide.

To make such families stand on their own.

The Context: Suicide of the farmers in the state of Maharashtra has become a burning topic. Almost everyday there is a news in the newspapers of farmers committing suicide.It happens due to poor economic condition of the farmers.

The practice :As a social responsibility the institute chooses a family of the farmer who has committed suicide to help them some way.

Evidence of success:The institution helped the family of a poor farmer to stand on its own by providing the floor mill. The family chosen of the farmer who committed suicide was from nearby village.

Problems encountered: In sensitiveness of the society towards the condition of poor farmers. Limited resources. Lack of firm policy of government .

Resources required: Availability of enough finance. Willingness of the government.
